

## **Psalm 91:16**

**With long life I will satisfy him and show him my salvation.**

**Father God, you have given me a long life and I thank you. And you show me your salvation every day as you give me thoughts that make me know you are present. You have set me free from many sins and made your presence known to me. You assure me that you are near to help and take away fear of death by assuring me that you plan for me to be with you. You have salvaged me from the dump heap and set me with you in Heavenly places. I thank you for my salvation when I first came to you, and all these years with you, and salvation when my life is over and I am forever with you. Amen.**
