

Date:

To: Pastors, Outreach Ministry Leaders, Bible Teachers

Our nursing home is in need of some time and attention from local church people and other Christians who will begin to build relationships with our residents and minister to them with spiritual care. We are asking local churches to consider this with some in their congregations who are able to give this to our place here in your community.

Residents have been through some very hard experiences these past two years, especially during periods when we have had to be closed to visitors and programs, and even now are being extra careful to keep them well. Many need the spiritual care ministry.

Would you be open to a conversation about our nursing home, what we view as possible, and ways we might work together for the spiritual care of our residents?

Our home is known as:

We are located at:
